

Slangen Sigurd

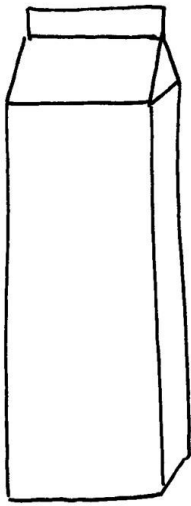

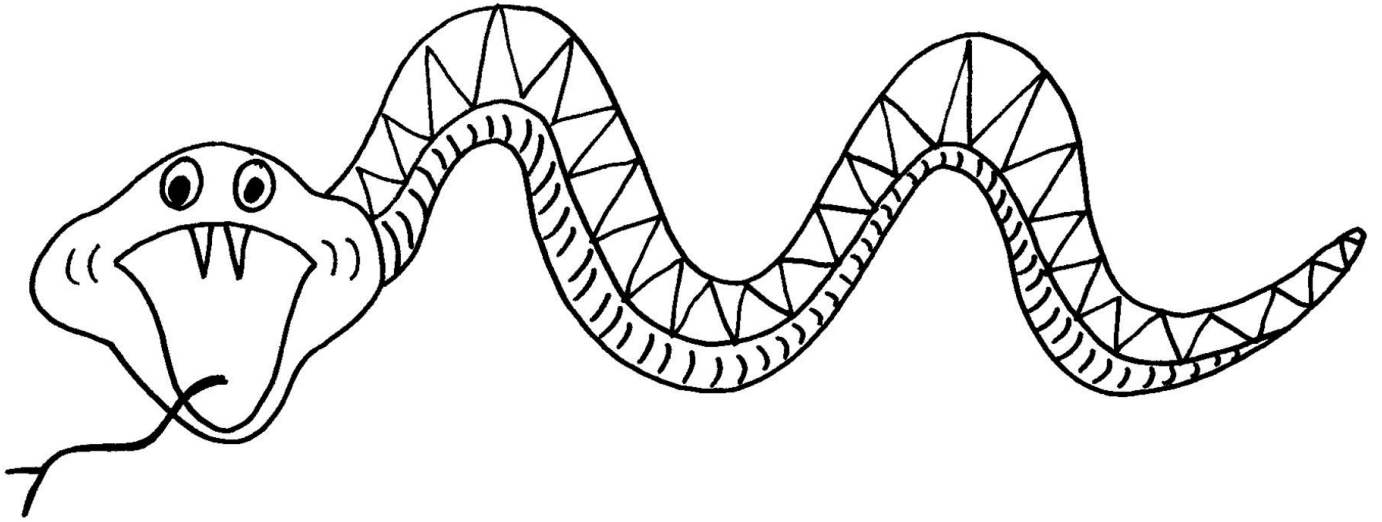

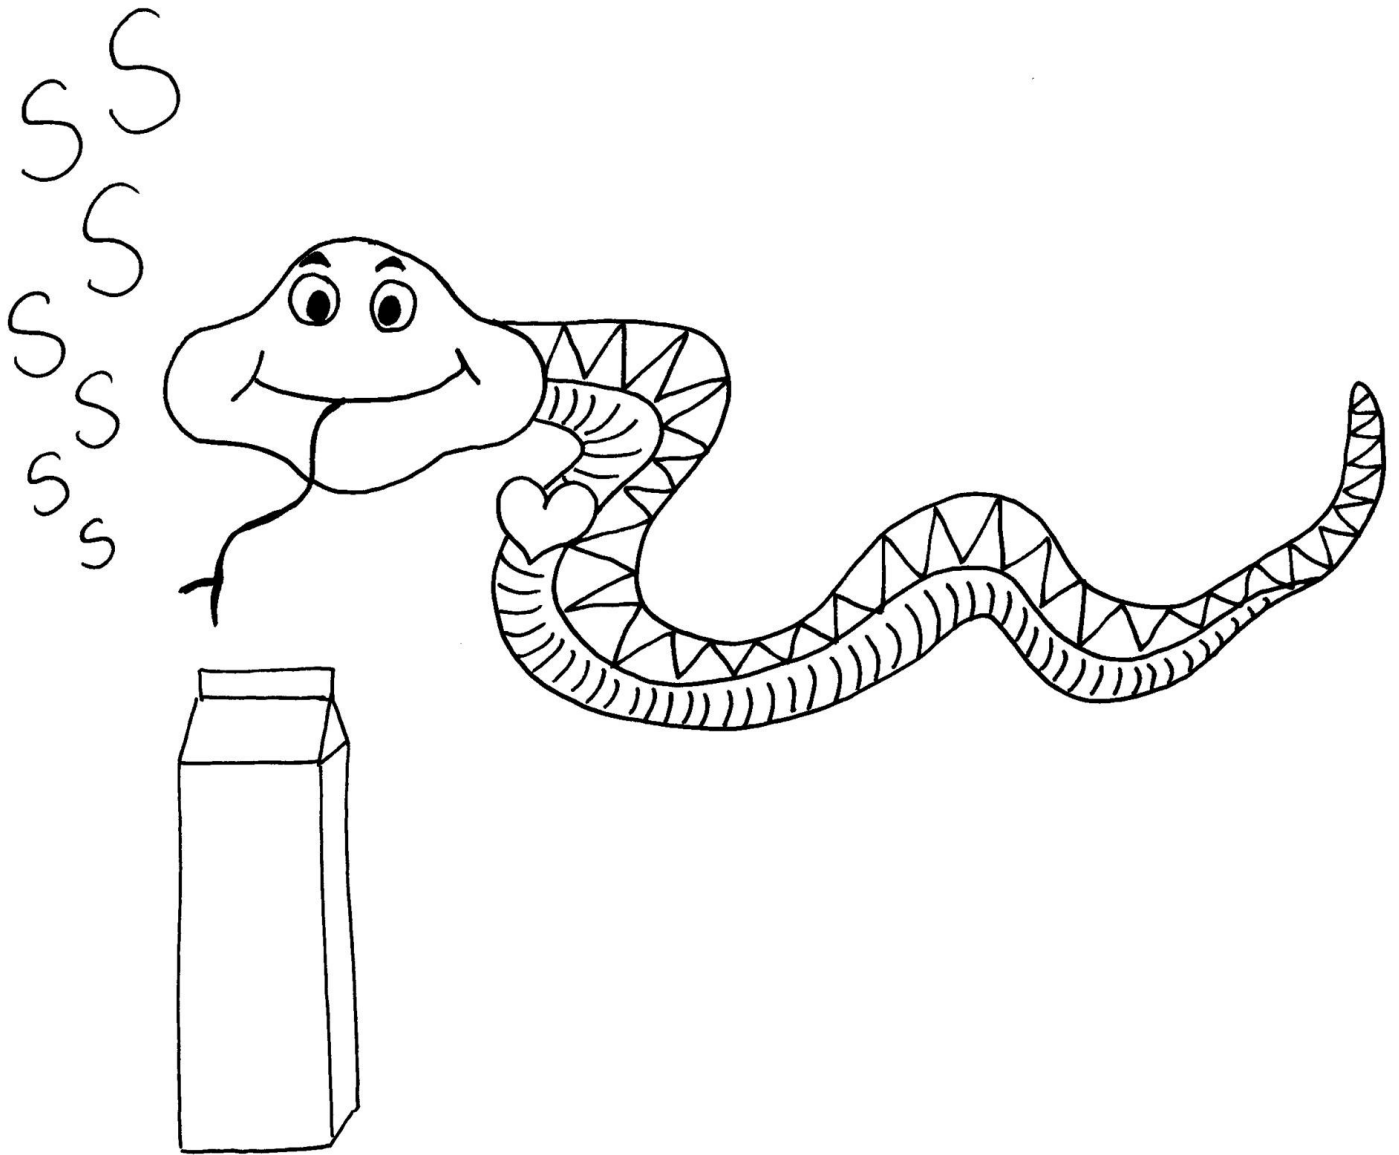

Slangen Sigurd kan lugte med sin tunge,
når han ser en fugleunge.
(Børnene skal vibrere med tungen)

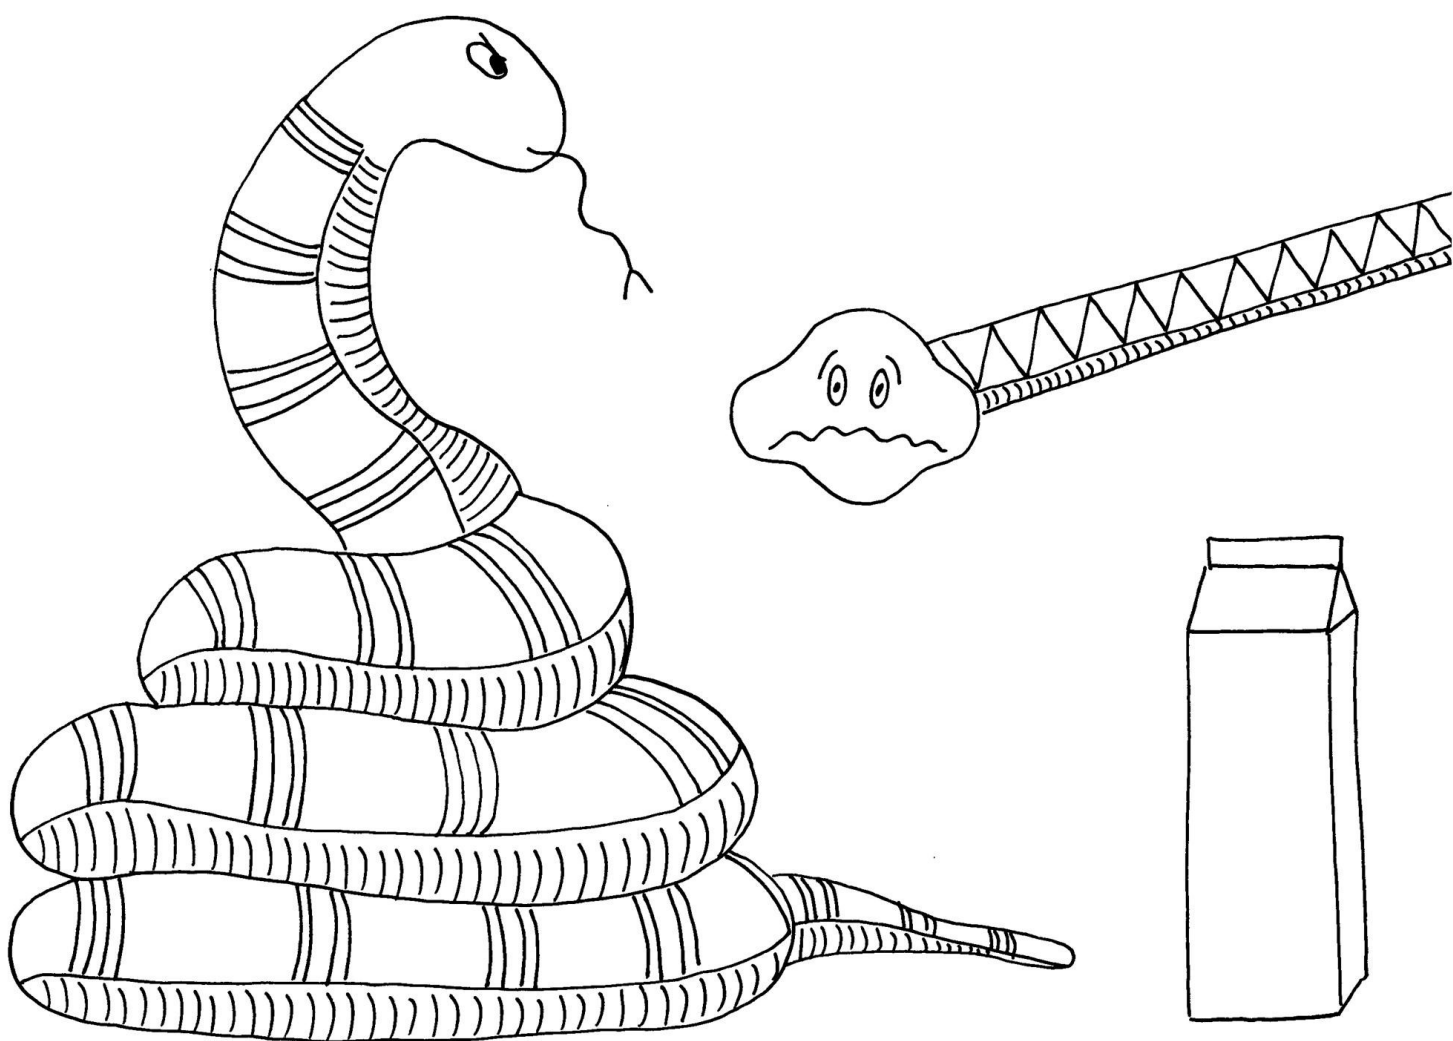

Men slangen Sigurd
kan allerbedst li' yoghurt.
(Børnene skal slikke sig om munden)

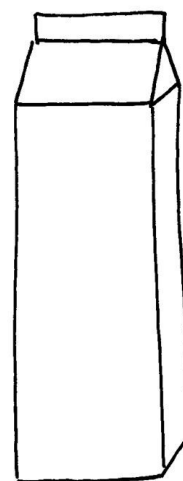

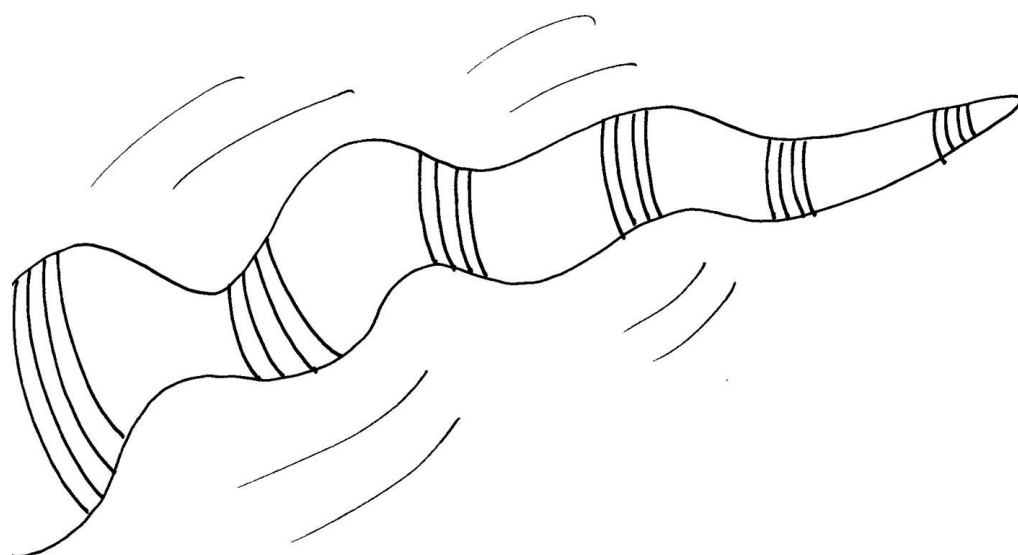

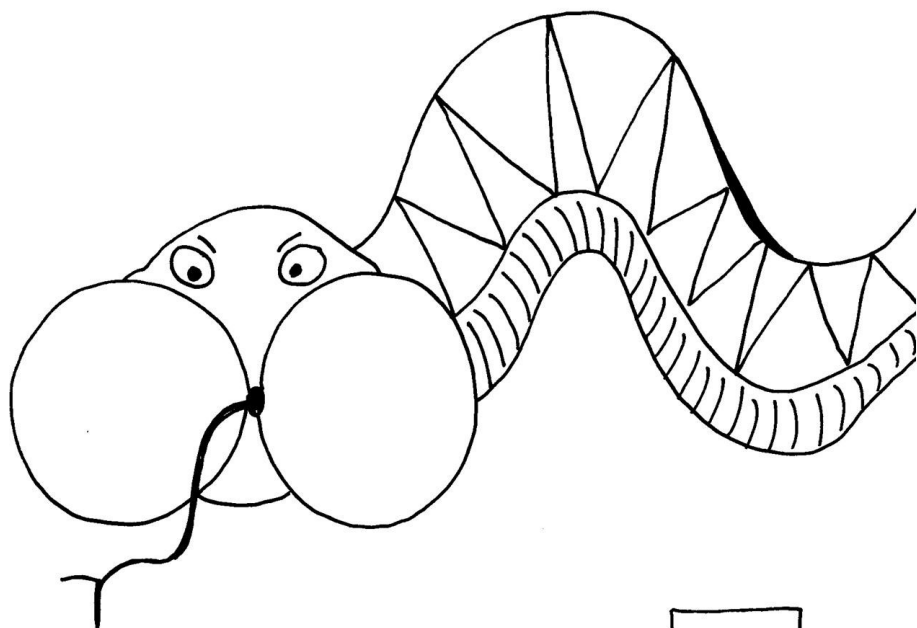

Han kryber afsted
og gaber kæben af led.
(Børnene skal gabe højt)

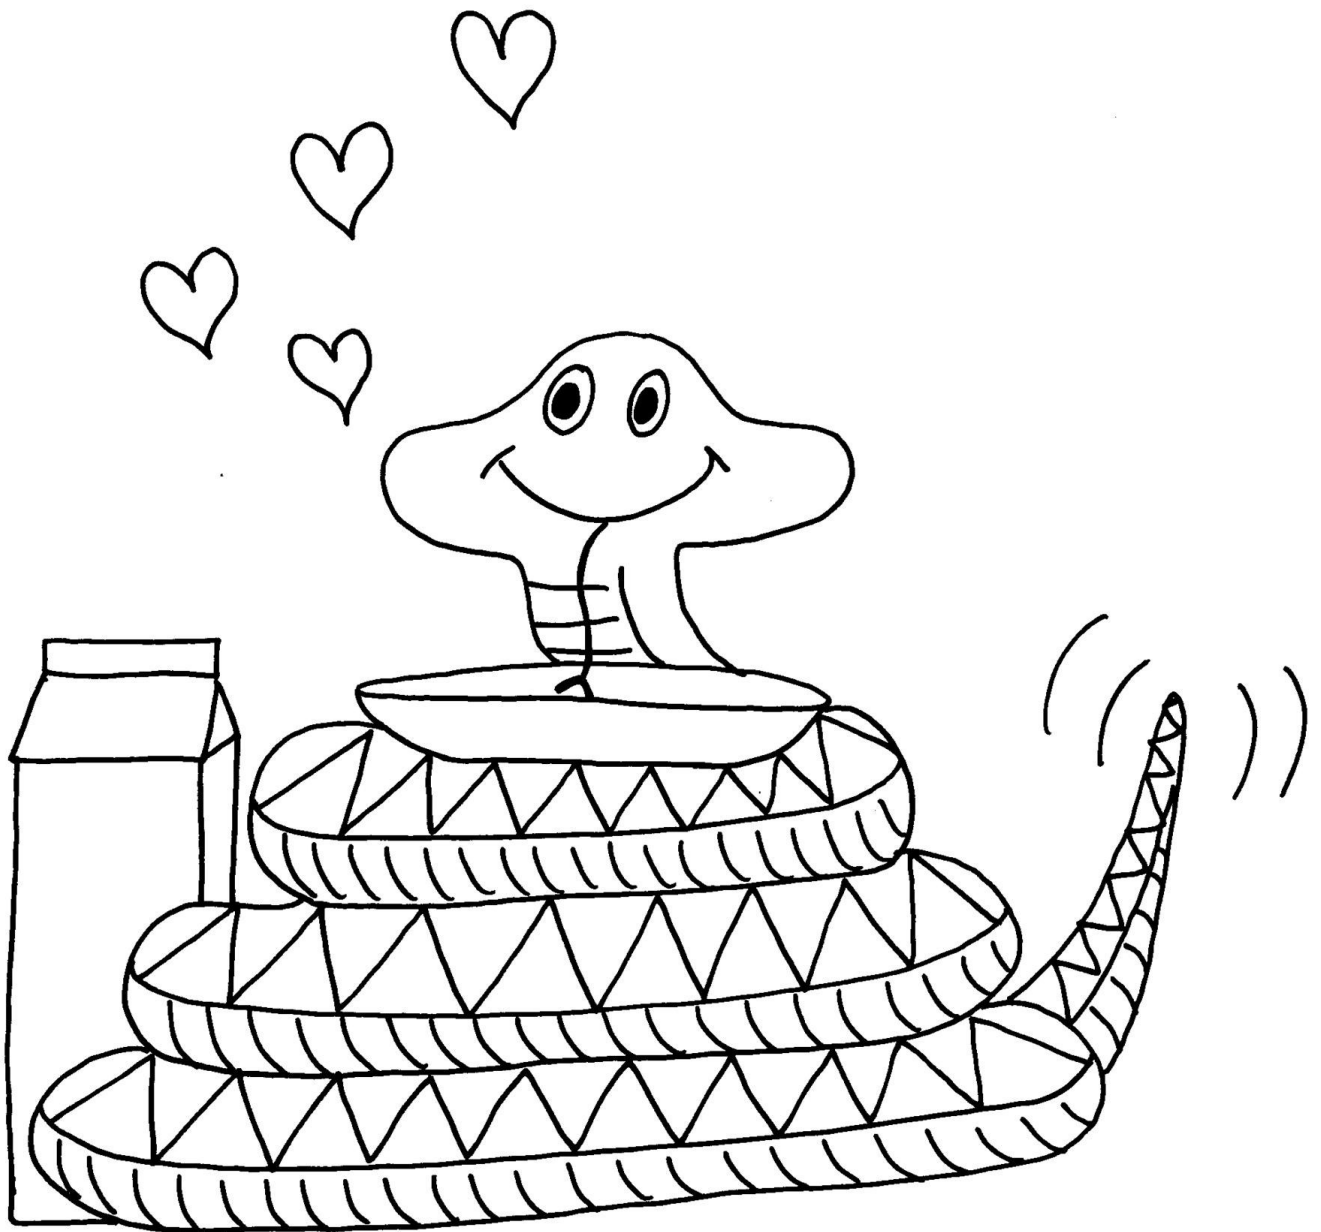

Det er hans hjertensfryd
at lave slangelyd.
(Børnene skal sige som en slange)

Og når han bliver bange
For en anden kæmpe slange.
(Børnene skal se bange ud)

Puster han kinderne op
Så den flygter i galop.
(Børnene skal puste kinderne op)

Så nu kan slangen Sigurd

Få sin elskede yoghurt.

(Børnene skal slikke yoghurt fra en tallerken)
